RAMJI SANITECH PVT. LTD.

ZIM today's one of the most prominent brands in the world of Bathroom Fixtures in India. It was in 1995 that the manufacturing company - RAMJI SANITECH PVT. LTD. was set up under the guidance of Mr. J.P. Gupta, a great visionary and adept technocrat in the field.

Though the beginning was in very modest level, because of the intellectual, human, foresightedness, innovative steps, persistent endeavours and noble spirit to serve the customers and satisfy their tastes and aspirations matching up with the ever changing trends and fashions, the company could not only create a distinct niche but also grew up to new levels of excellence within a short time.

ZIM products, manufactured in conformity with latest technology and international standards, in different models and collections are popular for their excellent workmanship, flawless performance, long durability and everlasting aesthetic appeal.

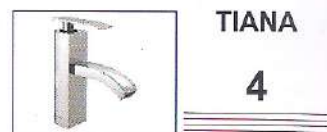

The company has at its disposal a sprawling plant in the fast-developing industrial area in East Delhi. It is run by a team of adept and experienced technical personnel under the direction of Mr. Gupta. Very particular about the quality of its products, the company maintains a very effective and stringent TQM (Total Quality Management). That apart, continuous R&D is an intrinsic feature at **ZIM** right from raw-material procurement to the finished products, rigid tests are undertaken at every stage of production to ensure that there is no deviation, whatsoever, from the relevant specification. As a natural result, **ZIM** is considered the ideal brand.

Having served numerous clients in India and abroad to their entire satisfaction and expanding the product range as well as the manufacturing capacity to meet the growing demands, the company has become a trend setter too.

For after-sale service of the company which backed by a group of aggressive, expert and dedicated people.

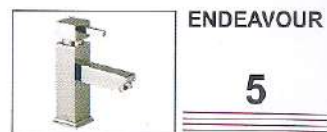

Despite the phenomenal growth of the company within such a short period, the company's future plans include further expansion and many more innovative and attractive models keeping pace with the changing styles and requirements, according to the vision of Mr. Gupta.

SUGGESTIONS FOR TROUBLE-FREE PERFORMANCE

1. PLEASE BUY "ZIM" PRODUCTS ONLY FROM THE AUTHORISED DEALERS OF THE COMPANY
2. THE AERATORS ON THE FAUCET OUTLET MUST BE CLEANED REGULARLY TO KEEP THE FOAM FLOW IN ORDER.
3. THE FINISHING PART OF THE FAUCETS MUST BE PROTECTED FROM DIRT AND DAMAGES BY COVERING THEM WITH CLOTH/POLYPACK IMMEDIATELY AFTER INSTALLATION, TILL THEY ARE ACTUALLY USED.
4. PLEASE CLEAN THE FITTINGS REGULARLY WITH NORMAL SOAP WATER/ DILUTED VINEGAR, AND USE CHALK POWDER TO REMOVE SCALING / STAINS. DO NOT USE STRONG DETERGENTS.
5. DO NOT USE HARSH CLEANING AGENTS CONTAINING ABRASIVES AND ACIDS ON COLOUR COATED FINISHES.
6. ALWAYS AVOID SHARP OBJECT AND EXTERNAL DAMAGE ON GOLD PLATING AS IT MAY DAMAGE THE PROTECTIVE LAYER OF ELECTROPHORETIC LACQUER ON THE GOLD PLATED SURFACES.
7. ALWAYS ENSURE THAT THE OUTLET PIPE IN THE OVERHEAD TANK IS AT LEAST 6 INCH ABOVE THE GROUND LEVEL OF THE TANK. IT IS NECESSARY TO AVOID FLOW OF CEMENT, WASTE AND OTHER SOLID PARTICLES INTO THE PIPE LINE. ALSO CLEAN THE TANK THOROUGHLY BEFORE THE SUPPLY STARTS TO MINIMIZE THE RISK OF DAMAGE TO THE WORKING PARTS OF THE FAUCETS.
8. OVERHEAD TANK MUST BE CLEANED REGULARLY TO AVOID DEPOSITION OF SOLID PARTICLES.
9. SINCE BENDS IN THE PIPELINE CAUSE LOSS OF WATER PRESSURE, KEEP THE NUMBER OF BENDS IN THE PIPELINES AS LOW AS POSSIBLE.
10. ALL SUPPLY LINES MUST HAVE VENT PIPES TO PREVENT AIR-LOCKING IN THE WATER SUPPLY AND TO KEEP THE FLOW OF WATER SMOOTH.
11. BEFORE FIXING OF TILES, WORKING OF THE CONCEALED FITTINGS MAY BE CHECKED AND IT MUST BE ENSURED THAT THEY ARE WORKING WELL.
12. ALWAYS USE 1½" INCH PIPE FOR THE FLUSH VALVES AND ¾" INCH PIPE FURTHER REDUCED TO ½" FOR WATER SUPPLY TO FAUCETS FOR BEST PERFORMANCE.
13. FOR ALL KINDS OF TECHNICAL OR SERVICE ASSISTANCE, PLEASE CONTACT THE NEAREST ZIM DEALER OR CUSTOMER CARE No. : 9999835268
